## BIO: NATE ROBERTSON

“ I started Nate Robertson Entertainment to provide professional DJ services at a reasonable price. I have always loved music, dancing and fun. What better job than one that encompasses all of that? In the seven years that I have been a DJ, the greatest experiences are the ones where people tell me, “That was the best night ever!” I have always prided myself on being the ‘perfect’ DJ for each individual group. I have an ability to read a crowd and provide the personality that makes you and your guests feel the most comfortable, and even more importantly, have the most fun. When I’m not a DJ, I’m a full time teacher, which means I know how to be appropriate when times call for it; however, I also know how to get the crowd jumpin’! ”

-Nate

## TESTIMONIALS

“ Nate is a true professional, he provided DJ services for our wedding in September of 2012. To say we were happy with Nate's performance is an extreme understatement. Nate was warm, genuine and personal. At one point, he even stepped out of his booth to lead our guest in some line dances. We, as well as our guest, found Nate's performance to be very polished and a perfect finishing touch on an absolutely perfect evening. If you have need of DJ services in the future I strongly recommend that you give Nate a call! ”

-Eddie Simones

“ We hired Nate to play at our wedding. We got his name from some good friends of ours that had seen him at another wedding. Nate did a great job playing music, making announcements, and really just making our wedding a blast. He played everything we requested, took requests from guests, and if he did not have a song in his collection, he made sure to get it.

I also recommended Nate for another wedding that I worked. The couple wanted dancing as well as to play games. They needed someone with a great voice and enthusiasm to get everyone excited. Nate did a great job with this and everyone had a great time with the games. ”

-Jacque Barton
